

## INTAKE VALVE DEPOSIT CLEANER

Penray's 2312 Intake Valve Deposit Cleaner has been re-formulated to provide the most thorough cleaning in the market! Penray's 2312 can be used for through the rail cleaning (using shop air) or it can be used through the vacuum line for top engine cleaning.

- Removes carbon deposits from valves
  - Optimizes air/fuel ratio for improved performance
  - Multi-functional application through the rail or vacuum cleans the intake manifold
  - Utilizes detergent and solvent technologies for maximum effectiveness
  - Helps restore performance for quieter starts and overall efficiency
- \* For professional use only. Use with special application equipment.

**Also available as part of the 2102 2-Step Fuel Injection and Induction Clean-Up Kit and 2103 3-Step Fuel Injection and Induction Clean-Up Kit!**
