CHAIN LUBE

Penray Product Bulletin

General Description

Provides the user with the ultimate in lubrication qualities along with a special property that prohibits the product from “flying off” under high velocity applications.

Product Benefits

- Durable lightweight grease fortified with Moly Sulfide and anti-wear additive
- For use in: any chain driven application, motorcycles, and motor bikes
- Dries after entering chain links or cable stands
- Quiets noise
- Prevents oxidation leading to longer life

Directions

Insert extension tube into spray tip. This affords user a more economical application by reducing over-spray and waste. Lubricate outer side plates of chain first, then repeat on the inside of side plates. Make sure that each link is lubricated in this fashion by rotating sprockets. Permit product to seep for a few minutes before operating chain. This will permit complete coverage.

Handling

Wash thoroughly after handling. Do not get into eyes, on skin or on clothing. Do not smoke while using this product. Do not use near excessive heat, sparks, or open flame. Store in clean, dry locations away from excessive heat. Store in areas designated for the storage of Level III Aerosols according to NFPA 30B (manufacturing and storage of aerosol products).
