

BATTERY PROTECTOR

PENRAY BATTERY PROTECTOR is formulated to prevent build-up of corrosive materials on battery terminals. It eliminates oxidation and seals out moisture. Penray Battery Protector is color tinted to guide the user and indicate the area treated.

Before protecting, use Penray Battery Cleaner 7012 to neutralize harmful battery acids and help dissolve common deposits.

- Prevents Corrosion and Oxidation
- Seals Out Moisture and Prevents Corrosive Build-Up
- Color Tinted to Guide User
- 50 State Formula
