

CONNECTOR SEAL

Automotive Electrical System Sealant

Penray Connector Seal is specially designed to form a tough flexible barrier that will not affect the ability to disconnect plugs, sockets or pig tails while providing a weather-proof seal. Great for sealing headlamp connections to prevent damage from moisture, or when flexibility is needed such as hooking up and unhooking trailers.

Benefits:

- Create weather-proof seal
- Seals wiring and electrical connections
- Protects from moisture, road salt & corrosion
- Heat resistant to 250 degrees Fahrenheit
- Transparent - will not hide color coded or marked wiring
- Quick drying
- 50 state formula
