Penray Product Bulletin

General Description

Penray Concentrated Motor Flush is a professional formula engine treatment product.

Product Benefits

- Oil system flush helps remove deposits and sludge formed in internal combustion engines
- Use after draining oil to flush before re-filling
- Frees valves, lifters and rings, allowing engine oil to circulate freely
- Use every 2-3 oil changes for maximum benefit

Directions

Carefully drain the engine oil from the engine. You will achieve better drain results if the engine oil is warm. Replace the drain plug. (Optional) Remove the oil filter and replace it with a new filter. Add entire container of Penray Concentrated Motor Flush to the crankcase and verify that the level is full on the dipstick.

Start the engine and idle for 5 minutes to allow the Motor Flush to flow freely to all engine parts. Turn off the engine. Drain the Motor Flush from the crankcase. Replace drain plug. Remove the oil filter and replace with a new oil filter. Add engine oil to the engine's crankcase per the engine manufacturer's specifications. Check the oil level and adjust as needed. NOTE: It is not recommended to perform this service for the first time on a high mileage vehicle.

Handling

Wash hands thoroughly after handling. Do not get into eyes, on skin or on clothing. Do not smoke while using this product. Do not use near excessive heat, sparks or open flames. Store in clean, dry locations away from excessive heat.

Physical Data

APPEARANCE/ODOR: Amber color, Petroleum Distillate odor

PHYSICAL STATE: Liquid

BOILING POINT: >300 °F

SPECIFIC GRAVITY: 0.8

VAPOR DENSITY: >1.0

PERCENT VOLATILES: 0

SOLUBILITY: Not soluble in water

FLASH POINT: NONE

FLAMMABILITY: Non-flammable

DOT PROPER SHIPPING NAME: Domestic: Consumer Commodity ORM-D Export: UN 1268, Petroleum Distillates, N.O.S., Class 3, PGIII, Limited Quantity

VOC COMPLIANT CA & OTC: YES
