PENRAY INDUSTRIAL PRODUCTS

RED GREASE 7001 - Sprays evenly and cures into a light grease. Lubricates and forms a waterproof barrier. Protects surfaces from moisture and corrosion. Functions at extremely low and high temperatures from -25°F to 300°F. For use in: tools, linkages, springs, conveyors, couplings, industrial chain drives, slides, garage door tracks, rollers, and farm implements. Red color enables easy visual inspection. Helps increase equipment life.

Net Wt. 11 oz.

OPEN GEAR LUBE 7003 - Fortified with Moly Sulfide for dramatic friction reduction. Stable in high and low temperature extremes from -25°F to 300°F. Protects against rust and corrosion. For use in: gears, steel cables, cutting bars, winches, rollers and presses.

Net Wt. 11 oz.

INNER SLIDE LUBE 7005 - Instantly adheres with stay-put formulation. Maximum Moly Sulfide content for ultimate lubrication. Protects against rust and corrosion. Prevents destructive metal to metal contact. For use in: Forklifts, fifth wheels, and all sliding metal surfaces.

Net Wt. 10.5 oz.

CHAIN LUBE 7006 - Durable lightweight grease fortified with Moly Sulfide and anti-wear additive. For use in: any chain driven application, motorcycles, and motor bikes. Dries after entering chain links or cable stands. Helps to quiet noise. Prevents oxidation leading to longer life.

Net Wt. 10 oz.

DRY GRAPHITE LUBE 7009 - Dries in minutes to a non-stick finish. Reduces friction, heat and surface wear. Protects against rust and corrosion. Bonds to metal, plastics, rubber and other surfaces. Repels dirt and lubricates. For use in: locks, latches, tracks and slides, industrial furnace and oven door hinges.

Net Wt. 11 oz.

BATTERY PROTECTOR 7011 - Prolongs battery life by preventing buildup of corrosive materials on battery terminals. Seals out moisture and prevents oxidation. Color tinted to indicate area treated. For use in: auto, marine, agriculture, motorcycle, heavy duty, off-road and industrial applications. To remove buildup use 7012 Battery Cleaner.

Net Wt. 11.5 oz.

BATTERY CLEANER 7012 - Neutralizes acid and removes corrosion for maximum current flow. Helps produce positive electrical contact. Can be used on all types of batteries, cables, terminals, and anything subject to acid corrosion. Spray on, wipe off. After cleaning use Penray Battery Protector 7011 to prevent future build-up and corrosion.

Net Wt. 15 oz.

ELECTRIC MOTOR CLEANER 7014 - Non-flammable formula is ideal for cleaning electrical systems. Easily removes grease, oil, brake fluid, and other contaminants. Dries quickly and leaves no residue. Designed for electric motors, transformers and machinery.

Net Wt. 19 oz.
